

Some Honeybee Facts

1. Honeybees have five eyes.
2. Their top speed when flying is about 20 mph.
3. They communicate to let each other know where to find food by doing a "waggle dance".
4. The honeybee's wings beat at about 200 times per second. This is why they go buzzy, buzzy, buzz!
5. It takes 12 honeybees their entire life to make one teaspoon of honey.

2. Buzz, Buzz, Buzzy Bee
